### Family

We encourage family participation in YMCA activities. We offer a variety of family memberships. Please refer to our Annual Membership Rate Chart for more details. Our family memberships entitle members of the family who reside at the same residence to use the facility. All children under the age of 18 are included in family membership. Young adults who are 18–21 years who are full time students and living at home will retain their family membership status. At 22 years, this individual would obtain a student membership (if they still qualify) or purchase an Adult Membership.

### Student (18+)

Full time students who are 18 years of age or older and have a valid full time student card from a recognized university or college are eligible for a student membership.
